

the United States Trade Representative and the Secretary of the Treasury should submit recommendations to Congress on whether legislative changes are necessary to lower the United States personal exemption allowance to conform to the allowance levels established in the other countries that are parties to the North American Free Trade Agreement.

Ms. COLLINS. Mr. President, I thank the Senator from Texas and salute the work she has done on behalf of retail businesses in border communities in Texas on the very issue I am about to discuss.

Mr. President, I rise today to submit a resolution seeking parity among the countries that are parties to the North American Free-Trade Agreement with respect to the personal exemption allowance for merchandise purchased by returning residents. I am pleased to be joined today by Senators MOYNIHAN, KYL, GREGG, HUTCHISON, and LEAHY as original cosponsors.

NAFTA was intended to remove trade barriers among the countries of the United States, Canada, and Mexico. While some of the goals of NAFTA have been realized, glaring inequities remain. One such inequity that affects small businesses, particularly retailers, located in border communities is the difference in personal exemption allowances permitted by the U.S. versus the allowances permitted by Canada and Mexico.

For Maine citizens living near the U.S./Canadian border, moving freely and frequently between the two countries is a way of life. Cross-border business and family relationships abound. The difference in personal exemption allowances, however, puts Maine businesses near the Canadian border at a considerable disadvantage in relation to their Canadian counterparts. Let me explain why. A United States citizen traveling to Canada for fewer than 24 hours is exempt from paying duties on \$200 worth of merchandise. For trips over 48 hours, the exemption increases to \$400 worth of merchandise. Under our laws, Canadian stores are able to serve both Canadian and American customers and, because of the exemption level, can sell Americans a significant amount of merchandise duty-free.

Unfortunately, this situation only works one way. A Canadian citizen is allowed a duty-free personal exemption allowance of only \$50 for a 24-hour visit and \$200 for a 48-hour visit. This means that a Canadian shopping for the day in the border communities of Fort Kent, Madawaska, or Calais or indeed anywhere in Maine can bring home only \$50 worth of merchandise before a duty is imposed. This is a significant deterrent to Canadians who would otherwise shop in Maine communities.

This disparity harms many Maine businesses, including Central Building Supplies, a small, family-owned home building materials business that has been in the same location in Madawaska, Maine for 35 years. Its owner wrote to me concerned about this issue. Over the past couple years,

his small store has lost sales in kitchen cabinets, windows, wood flooring, and ceramic tile largely due to the inequity in duty allowances and the exchange rate. Whether they are located in the St. John Valley or in Washington County, small businesses cite similar problems. The allowance disparity also hurts stores in the Aroostook Centre Mall and the Bangor Mall, which have traditionally attracted Canadian shoppers.

This discrepancy in personal exemption allowances gives an enormous competitive advantage to the Canadian and Mexican retailers. It gives these retailers to our north and the south access to cross-border shoppers while limiting that same opportunity for American retailers. Mr. President, this is not fair trade, and this is not free trade. This parity should be eliminated.

The resolution I am submitting today would express the sense of the Senate that the United States Trade Representative and the Secretary of the Treasury should initiate discussions with officials of the Governments of Canada and Mexico to achieve parity with respect to the personal exemption allowance structure. In the event that parity in the personal exemption is not reached within one year after the date of the adoption of this resolution, this resolution would require the United States Trade Representative and the Secretary of the Treasury to submit recommendations to Congress on whether legislative changes are necessary to achieve personal exemption parity. The steps set forth in this resolution would begin to resolve this inequity. I urge my colleagues to support its swift passage.

I thank the Senator from Texas for not only yielding but for cosponsoring this resolution.

The PRESIDING OFFICER. The Senator from Texas.

Mrs. HUTCHISON. I commend my colleague from Maine for submitting this resolution. It is very similar to a resolution I submitted 2 years ago. Unfortunately, the U.S. Trade Representative has not taken this cause as a serious cause. I hope with bipartisan support on Senator COLLINS' resolution the U.S. Trade Representative will see this is an issue on the northern border and on the southern border. It is a very serious issue that severely disadvantages retailers in the United States and also is a handicap for the consumers in both Canada and Mexico that want to purchase big items such as television sets, refrigerators, washing machines, and dryers available on the borders that they are not able to purchase without huge tariffs.

We passed the North American Free Trade Agreement to do away with tariffs so we would have free and open trade across our borders. It is not working when it comes to retailing in that cross border area where people walk back and forth. Parity is achieved if you fly in and out of our three countries, but not if you go across by car.

It is a terrible inequity. I hope Senator COLLINS' resolution gets the attention of our U.S. Trade Representative about the seriousness of this issue. I commend her for the resolution.

GRAHAM AMENDMENT NO. 3091

(Ordered to lie on the table.)

Mr. GRAHAM submitted an amendment to be proposed by him to the bill, H.R. 6, supra; as follows:

At the end add the following:

SEC. . . . DELAY IN EFFECTIVE DATE.

(a) FINDINGS.—The Senate finds the following:

(1) The social security program is the foundation upon which millions of Americans rely for income during retirement or in the event of disability.

(2) For nearly two-thirds of seniors living alone, social security comprises 50 percent or more of their total income.

(3) The medicare program provides essential medical care for tens of millions of older and disabled Americans.

(4) During the 35-year history of the program, medicare has helped lift elderly Americans out of poverty and has improved and extended their lives.

(5) According to the 2000 annual report of the Board of Trustees of the social security trust funds—

(A) beginning in 2016, payroll tax revenue will fall short of the amount needed to pay current benefits, necessitating the use of interest earned on trust fund assets and then the eventual redemption of those assets; and

(B) assets of the combined retirement and disability trust funds will be exhausted in 2037.

(6) According to the 2000 annual report of the Board of Trustees of the social security trust funds, assets in the medicare health insurance trust fund will be exhausted in 2023.

(7) The Congressional Budget Office has prepared 3 estimates of the non-social security surplus for the next 10 years which range in size from \$838,000,000,000 to \$1,918,000,000,000.

(8) The presence of non-social security surpluses present Congress with the opportunity to address the long-term funding shortfall facing the social security and medicare programs.

(b) DELAY IN EFFECTIVE DATE.—Notwithstanding any other provision of, or amendment made by, this Act, no such provision or amendment shall take effect until legislation has been enacted that extends the solvency of the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund under section 201 of the Social Security Act through 2075 and the Federal Hospital Insurance Trust Fund under part A of title XVIII of such Act through 2025.
